

Non-Negotiable Spelling Lists Grades K-8

The following grade level spelling/writing lists are words that students are expected to learn within each grade level along with the words in the Scholastic Spelling Resource Book for Kindergarten through fifth grade. Students are to be held accountable for spelling these words correctly within designated assignments that will be graded. The entire grade level list may be posted as part of a word wall or may be posted as the words are introduced. Previous grade level lists may be posted as well.

The vertical teams have not yet determined the spelling program for grades six through eight, but the lists are available as an option at this time.
