Independent Auditor's Report on Financial Statements

Board of Trustees
Georgetown Independent School District
Georgetown, Texas

Members of the Board of Trustees:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Georgetown Independent School District as of and for the year ended June 30, 2009, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Georgetown Independent School District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Georgetown Independent School District as of June 30, 2009, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 5, 2009, on our consideration of Georgetown Independent School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis and the budgetary comparison information identified as Required Supplementary Information in the table of contents are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was performed for the purpose of forming opinions on the financial statements which collectively comprise the Georgetown Independent School District's basic financial statements. The accompanying schedule of expenditures of federal awards required by U. S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations* and the supporting

schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. This information, except for that portion marked "unaudited" on which we express no opinion, has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "West, Davis & Company, LLP". The signature is written in a cursive, flowing style with a large, sweeping flourish at the end.

West, Davis & Company, LLP
November 5, 2009

Georgetown Independent School District

MANAGEMENT'S DISCUSSION AND ANALYSIS

In this section of the Annual Financial Report, we, the managers of Georgetown Independent School District (the District), discuss and analyze the District's financial performance for the year ended June 30, 2009. Please read it in conjunction with the independent auditors' report on page 2, and the District's Basic Financial Statements, which begin on page 11.

FINANCIAL HIGHLIGHTS

- The District's total net assets were \$54.7 million.
- The General Fund ended the year with a fund balance of \$16.6 million, \$213 thousand more than the previous year. This was a result of increases in state funding resulting from recent legislative changes in how funds are allocated to Districts throughout the state.
- The District issued \$95.7 million in general obligation debt with the Series 2006 Building Bonds. The District's capital projects fund expended some \$6 million in funds relating to its facilities construction and improvement projects. Included are contracts to build a new high school, a new athletic stadium, a supplemental services building, technology and improvements to facilities throughout the District.
- The District ended the year with \$141.7 outstanding in general obligation bonded debt.
- General Fund expenditures of \$81.4 million increased by 7% over the prior year.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The government-wide financial statements include the Statement of Net Assets and the Statement of Activities on pages 11 and 12. These provide information about the activities of the District as a whole and present a longer-term view of the District's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund financial statements, starting on page 13, report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. For governmental activities, these statements tell how services were financed in the short term as well as what resources remain for future spending. They reflect the flow of current financial resources, and supply the basis for tax levies and the appropriations budget. For proprietary activities, fund financial statements tell how services of the District were sold within the District or to external customers and how the sales revenues covered the expenses of the services.

The notes to the financial statements starting on page 20 provide narrative explanations or additional data needed for full disclosure in the government-wide statements or the fund financial statements.

The sections labeled TEA Required Schedules and Federal Awards Section contain data used by monitoring or regulatory agencies for assurance that the District is using funds supplied in compliance with the terms of grants.

Reporting the District as a Whole

The Statement of Net Assets and the Statement of Activities

The analysis of the District's overall financial condition and operations begins on page 11. Its primary purpose is to show whether the District is better off or worse off as a result of the year's activities. The Statement of Net Assets includes all the District's assets and liabilities at the end of the year while the Statement of Activities includes all the revenues and expenses generated by the District's operations during the year. These apply the accrual basis of accounting which is the basis used by private sector companies.

All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. The District's revenues are divided into those provided by outside parties who share the costs of some programs, such as tuition received from students from outside the district and grants provided by the U.S. Department of Education to assist children with disabilities from disadvantaged backgrounds (program revenues), and revenues provided by the taxpayers or by TEA in equalization funding processes (general revenues). All the District's assets are reported whether they serve the current year or future years. Liabilities are considered regardless of whether they must be paid in the current or future years (such as workers' compensation claims).

These two statements report the District's net assets and changes in them. The District's net assets (the difference between assets and liabilities) provide one measure of the District's financial health, or financial position. Over time, increases or decreases in the District's net assets are one indicator of whether its financial health is improving or deteriorating. To fully assess the overall health of the District, however, you should consider non-financial factors as well, such as changes in the District's average daily attendance or its property tax base and the condition of the District's facilities.

In the Statement of Net Assets and the Statement of Activities, the District exhibits one kind of activity:

- Governmental activities—Most of the District's basic services are reported here, including the instruction, counseling, co-curricular activities, food services, transportation, maintenance, community services, and general administration. Property taxes, tuition, fees, and state and federal grants finance most of these activities.

Reporting the District's Most Significant Funds

Fund Financial Statements

The fund financial statements begin on page 13 and provide detailed information about the most significant funds—not the District as a whole. Laws and contracts require the District to establish some funds, such as grants received under the No Child Left Behind Act from the U.S. Department of Education. The District's administration establishes many other funds to help it control and manage money for particular purposes (like campus activities). The District's two kinds of funds—governmental and proprietary—use different accounting approaches:

- Governmental funds—Most of the District's basic services are reported in governmental funds. These use modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash) and report balances that are available for future spending. The governmental fund statements provide a detailed short-

term view of the District's general operations and the basic services it provides. We describe the differences between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds in reconciliation schedules following each of the fund financial statements.

- Proprietary funds—The District reports the activities for which it charges users (whether outside customers or other units of the District) in proprietary funds using the same accounting methods employed in the Statement of Net Assets and the Statement of Activities. In fact, the District's enterprise funds (one category of proprietary funds) are the business-type activities reported in the government-wide statements but containing more detail and additional information, such as cash flows.

The District as Trustee

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for money raised by student activities. We exclude these resources from the District's other financial statements because the District cannot use these assets to finance its operations. The District is only responsible for ensuring that the assets reported in these funds are used for their intended purposes.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net assets of the District's governmental activities increased from \$51.9 million to \$54.6 million. Unrestricted net assets – the part of net assets that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements – was \$15 million at June 30, 2009.

The cost of all governmental activities this year was \$103.6 million. The Statement of Activities on pages 12 shows that the amount that our taxpayers ultimately financed for these activities through District taxes was \$66.5 million.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirement, bond covenants, and segregation for particular purposes.

Government funds. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unreserved, undesignated fund balance may serve as a useful measure of the District's net resources available for spending at the end of a fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balance of \$33.3 million, a decrease of \$4.5 million due to expenditures associated with the Capital Projects Fund net of revenue in the amount of \$5.5 million, an increase of \$0.2 million in the general fund, and an increase of \$0.7 million in the debt service fund. Approximately 49 percent of this total amount (\$16.2 million) constitutes unreserved, undesignated fund balance. The remainder of the fund balance is reserved or designated to indicate that it is not available for new spending because it has already been committed for:

- Payment of debt service payments (\$6.7 million);
- Capital projects (\$9.7 million);

The general fund is the primary operating fund of the District. At the end of the current fiscal year, unreserved, undesignated fund balance of the general fund was \$16.2. As a measure of the general fund's liquidity, it may be useful to compare unreserved fund balance to the total fund expenditures. The resultant 19.8% represents that percentage of annual expenditures held in reserve.

The total fund balance of the District's general fund increased by \$213 thousand.

The debt service fund has a total fund balance of \$6.7 million, all of which is reserved for the payment of debt service. The net increase in fund balance during the period in the debt service fund was \$722 thousand.

The District's total general revenues were \$81.7 million. A portion, \$55.9 million or 68.4%, of the District's revenues come from taxes, and other local revenue. The majority of the other 31.6% of revenues is from State Program Revenues.

GENERAL FUND BUDGETARY HIGHLIGHTS

Over the course of the year, the District recommended and the Board approved revisions to budgeted revenue and appropriations.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of the 2008-09, the District had \$209 million invested in a broad range of capital assets, including facilities and equipment for instruction, transportation, athletics, administration, and maintenance. This is an increase from the prior year due to construction in progress of the high school renovation, the purchase of property for the second high school, and purchase of furniture and equipment. More detailed information about the District's capital assets is presented in Note D to the financial statements.

Debt

At year-end, the District had \$141.7 million in bonds outstanding versus \$146.4 million last year. Moody's Investors Service and Standard and Poor's both reaffirmed the District's underlying credit ratings of "A2" and "A" respectively.

More detailed information about the District's long-term liabilities is presented in Note F to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The District's elected and appointed officials considered many factors when setting the fiscal year 2009-2010 budget and tax rates. One of these factors was the implementation of House Bill 1 and the many complexities associated with state aid and setting the tax rate. Another factor is the economy. The national economy is in the biggest recession since the Great Depression. However, the State of Texas has been somewhat sheltered as compared to the rest of the nation. The impact to Williamson County has been minimal, even showing a slight increase in the District's property values of 1% for 2009.

Global credit markets experienced unprecedented fear and volatility in 2008, as was evidenced by the takeover of Bear Stearns by JPMorgan Chase, the failure of Lehman Brothers Bank, and the government bailouts of AIG, Ginnie Mae, Fannie Mae and Freddie Mac. The resulting massive flight to quality and sharp declines in home prices resulted in declining market yields. The Fed funds target rate went from 2% in September 2008 to a range of 0% to .25% in mid-December 2008 where it remained as of June 30, 2009.

The District invested funds in daily liquidity local government investment pools. The priority of the District in this interest rate environment and volatile market was safety of principal and liquidity. As of June 30, 2009, the arbitrage rebate calculation on the 2005 Bond proceeds had changed the District's estimated liability from \$450,552 to \$204,989 due to declining interest rates.

The District estimated a 2% growth in students for 2009-2010, and a 5% decrease in property values for budget purposes. The 2009-2010 tax rate is \$1.290, with \$1.04 for maintenance and operations and \$0.25 for debt service. This is the same tax rate as 2007-2008 and 2008-2009.

These indicators were taken into consideration when adopting the General Fund budget for 2009-2010. Amounts available for appropriation in the General Fund budget are \$81 million. Budgeted expenditures are expected to be \$81 million. District staff received a 3.7% pay raise for 2009-2010, and the employer insurance contribution was increased from \$3,600 to \$3,792 per year for all employees participating in the health insurance program. Twenty additional teaching positions are included in the 2009-2010 budget to comply with 22 to 1 ratio in Kindergarten through 6th grade.

The District paid Chapter 41 State recapture of \$503,000 in 2008-2009, which was the first recapture ever paid to the State by the District under the current "Robin Hood" State funding plan. The District does not expect to pay State recapture in 2009-2010 due to changes in the equalized wealth level.

The Federal Government passed the American Recovery and Reinvestment Act of 2009 (ARRA) and State Fiscal Stabilization Funds (SFSF) in February 2009. The District was awarded \$2.5 million in ARRA funds through IDEA-B and Title I grants. The District was awarded \$2.9 million in SFSF funds through the Foundation School Fund and the Available School Fund. These funds are allocated through the 2010-2011 school year.

The District approved and completed construction of 14 close-out projects using surplus and interest earned on the 2005 Bond proceeds.

In a year when the majority of Texas School Districts were funding minimal salary increases for staff through increases in tax rates or through use of fund balance, Georgetown ISD was able to give higher than average pay raises for 2009-2010 without increasing the tax rate and without requiring any reduction in fund balance.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Chief Financial Officer at the District's service center at Georgetown Independent School District, 603 Lakeway Drive, Georgetown, Texas 78628, www.georgetownisd.org.

GEORGETOWN INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2009

A. Summary of Significant Accounting Policies

The basic financial statements of Georgetown Independent School District (the "District") have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") applicable to governmental units in conjunction with the Texas Education Agency's Financial Accountability System Resource Guide ("Resource Guide"). The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

1. Reporting Entity

The Board of School Trustees ("Board"), a seven-member group, has governance responsibilities over all activities related to public elementary and secondary education within the jurisdiction of the District. The Board is elected by the public and has the exclusive power and duty to govern and oversee the management of the public schools of the District. All powers and duties not specifically delegated by statute to the Texas Education Agency ("TEA") or to the State Board of Education are reserved for the Board, and the TEA may not substitute its judgment for the lawful exercise of those powers and duties by the Board. The District receives funding from local, state and federal government sources and must comply with the requirements of those funding entities. However, the District is not included in any other governmental "reporting entity" as defined by the GASB in its Statement No. 14, "The Financial Reporting Entity," as revised by GASB Statement No.39, and there are no component units included within the reporting entity.

2. Basis of Presentation, Basis of Accounting

a. Basis of Presentation

Government-wide Financial Statements: The statement of net assets and the statement of activities include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The District does not allocate indirect expenses in the statement of activities. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the District's funds, with separate statements presented for each fund category. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The District reports the following major governmental funds:

General Fund: This is the District's primary operating fund. It accounts for all financial resources of the District except those required to be accounted for in another fund.

Debt Service Fund: The Debt Service Fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

Capital Projects Fund: The Capital Projects Fund accounts for financial resources to be used for the construction of major capital facilities.

GEORGETOWN INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2009

In addition, the District reports the following fund types:

Agency Funds: These funds are used to report student activity funds and other resources held in a purely custodial capacity (assets equal liabilities). Agency funds typically involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

Fiduciary funds are reported in the fiduciary fund financial statements. However, because their assets are held in a trustee or agent capacity and are therefore not available to support District programs, these funds are not included in the government-wide statements.

b. Measurement Focus, Basis of Accounting

Government-wide and Fiduciary Fund Financial Statements: These financial statements are reported using the economic resources measurement focus. They are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

When the District incurs an expenditure or expense for which both restricted and unrestricted resources may be used, it is the District's policy to use restricted resources first, then unrestricted resources.

3. Financial Statement Amounts

a. Property Taxes

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the fiscal year.

Allowances for uncollectible tax receivables within the General and Debt Service Funds are based upon historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

GEORGETOWN INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2009

b. Inventories and Prepaid Items

The District records purchases of supplies as expenditures, utilizing the purchase method of accounting for inventory in accordance with the Resource Guide.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

c. Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated fixed assets are recorded at their estimated fair value at the date of the donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. A capitalization threshold of \$5,000 is used.

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Buildings and Improvements	40
Furniture and Equipment	5-30

d. Receivable and Payable Balances

The District believes that sufficient detail of receivable and payable balances is provided in the financial statements to avoid the obscuring of significant components by aggregation. Therefore, no disclosure is provided which disaggregates those balances.

There are no significant receivables which are not scheduled for collection within one year of year end.

e. Interfund Activity

Interfund activity results from loans, services provided, reimbursements or transfers between funds. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers In and Transfers Out are netted and presented as a single "Transfers" line on the government-wide statement of activities. Similarly, interfund receivables and payables are netted and presented as a single "Internal Balances" line of the government-wide statement of net assets.

f. Use of Estimates

The preparation of financial statements in conformity with GAAP requires the use of management's estimates.

g. Data Control Codes

Data Control Codes appear in the rows and above the columns of certain financial statements. The TEA requires the display of these codes in the financial statements filed with TEA in order to insure accuracy in building a statewide database for policy development and funding plans.

GEORGETOWN INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2009

B. Compliance and Accountability

1. Finance-Related Legal and Contractual Provisions

In accordance with GASB Statement No. 38, "Certain Financial Statement Note Disclosures," violations of finance-related legal and contractual provisions, if any, are reported below, along with actions taken to address such violations:

<u>Violation</u>		<u>Action Taken</u>
<u>Expenditures Exceeded Appropriations</u>	<u>In</u>	
<u>Fund/Function</u>	<u>Thousands</u>	
General		
Instruction	259	Closer monitoring.
Instructional Resources and Media Services	22	Closer monitoring.

Other Intergovernmental Charges	25	Closer monitoring.
Debt Service		
Debt Service	24	Closer monitoring.
Food Service		
Food Services	92	Closer monitoring.

2. Deficit Fund Balance or Fund Net Assets of Individual Funds

Following are funds having deficit fund balances or fund net assets at year end, if any, along with remarks which address such deficits:

<u>Fund Name</u>	<u>Deficit Amount</u>	<u>Remarks</u>
None	\$ --	N/A

C. Deposits and Investments

The District's funds are required to be deposited and invested under the terms of a depository contract. The depository bank deposits for safekeeping and trust with the District's agent bank approved pledged securities in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

1. Cash Deposits:

At June 30, 2009, the carrying amount of the District's deposits (cash, certificates of deposit, and interest-bearing savings accounts included in temporary investments) was \$607,379 and the bank balance was \$2,511,882. The District's cash deposits at June 30, 2009 and during the year ended June 30, 2009, were entirely covered by FDIC insurance or by pledged collateral held by the District's agent bank in the District's name.

GEORGETOWN INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2009

2. Investments:

The District is required by Government Code Chapter 2256, The Public Funds Investment Act, to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit.

The Public Funds Investment Act ("Act") requires an annual audit of investment practices. Audit procedures in this area conducted as a part of the audit of the basic financial statements disclosed that in the areas of investment practices, management reports and establishment of appropriate policies, the District adhered to the requirements of the Act. Additionally, investment practices of the District were in accordance with local policies.

The Act determines the types of investments which are allowable for the District. These include, with certain restrictions, 1) obligations of the U.S. Treasury, U.S. agencies, and the State of Texas, 2) certificates of deposit, 3) certain municipal securities, 4) securities lending program, 5) repurchase agreements, 6) bankers acceptances, 7) mutual funds, 8) investment pools, 9) guaranteed investment contracts, and 10) commercial paper.

The District's investments at June 30, 2009 are shown below.

<u>Investment or Investment Type</u>	<u>Maturity</u>	<u>Rating</u>	<u>Fair Value</u>
Public funds Investment Pools:			
TexPool	46 Days	AAAm	25,872,510
Lone Star	29 Days	AAA	11,001,910
Total Investments			<u>\$ 36,874,420</u>

3. Analysis of Specific Deposit and Investment Risks

GASB Statement No. 40 requires a determination as to whether the District was exposed to the following specific investment risks at year end and if so, the reporting of certain related disclosures:

a. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized rating agencies are designed to give an indication of credit risk. At year end, the District was not significantly exposed to credit risk.

At June 30, 2009, the District's investments, other than those which are obligations of or guaranteed by the U. S. Government, are rated as to credit quality as follows:

The guaranteed investment contract terminates on February 15, 2009, and the District is allowed to make two draws per month at a minimum amount of \$100,000 each. The yield under the contract is 4.582%. The contract is collateralized by U.S. government agency obligations in an amount at least equal to 102% of the amount invested under the contract. The collateral securities are pledged to the District and deposited with an approved third party.

b. Custodial Credit Risk

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the District's name.

GEORGETOWN INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2009

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the District's name.

At year end, the District was not exposed to custodial credit risk.

c. Concentration of Credit Risk

This risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At year end, the District was not exposed to concentration of credit risk.

d. Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. At year end, the District was not exposed to interest rate risk.

e. Foreign Currency Risk

This is the risk that exchange rates will adversely affect the fair value of an investment. At year end, the District was not exposed to foreign currency risk.

Investment Accounting Policy

The District's general policy is to report money market investments and short-term participating interest-earning investment contracts at amortized cost and to report nonparticipating interest-earning investment contracts using a cost-based measure. However, if the fair value of an investment is significantly affected by the impairment of the credit standing of the issuer or by other factors, it is reported at fair value. All other investments are reported at fair value unless a legal contract exists which guarantees a higher value. The term "short-term" refers to investments which have a remaining term of one year or less at time of purchase. The term "nonparticipating" means that the investment's value does not vary with market interest rate changes. Nonnegotiable certificates of deposit are examples of nonparticipating interest-earning investment contracts.

Public Funds Investment Pools

Public funds investment pools in Texas ("Pools") are established under the authority of the Interlocal Cooperation Act, Chapter 79 of the Texas Government Code, and are subject to the provisions of the Public Funds Investment Act (the "Act"), Chapter 2256 of the Texas Government Code. In addition to other provisions of the Act designed to promote liquidity and safety of principal, the Act requires Pools to: 1) have an advisory board composed of participants in the pool and other persons who do not have a business relationship with the pool and are qualified to advise the pool; 2) maintain a continuous rating of no lower than AAA or AAA-m or an equivalent rating by at least one nationally recognized rating service; and 3) maintain the market value of its underlying investment portfolio within one half of one percent of the value of its shares.

The District's investments in Pools are reported at an amount determined by the fair value per share of the pool's underlying portfolio, unless the pool is 2a7-like, in which case they are reported at share value. A 2a7-like pool is one which is not registered with the Securities and Exchange Commission ("SEC") as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940.

GEORGETOWN INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2009

G. Risk Management

The District is exposed to various risks of loss related to torts, theft, damage or destruction of assets, errors and omissions, injuries to employees, and natural disasters. During fiscal year 2009, the District purchased commercial insurance to cover general liabilities. There were no significant reductions in coverage in the past fiscal year and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

H. Pension Plan

1. Plan Description

The District contributes to the Teacher Retirement System of Texas (the "System"), a public employee retirement system. It is a cost-sharing, multiple-employer defined benefit pension plan with one exception: all risks and costs are not shared by the District, but are the liability of the State of Texas. The System provides service retirement and disability retirement benefits, and death benefits to plan members and beneficiaries. The System operates primarily under the provisions of the Texas Constitution and Texas Government Code, Title 8, Subtitle C. The Texas legislature has the authority to establish or amend benefit provisions. The System issues a publicly available financial report that includes financial statements and required supplementary information for the District. That report may be obtained by writing the Teacher Retirement System of Texas, 1000 Red River Street, Austin, TX 78701-2698 or by calling (800) 223-8778.

2. Funding Policy

Under provisions in State law, plan members are required to contribute 6.4% of their annual covered salary and the State of Texas contributes an amount equal to 6.0% of the District's covered payroll. The District's employees' contributions to the System for the years ending June 30, 2009, 2008 and 2007 were \$3,976,147, \$3,738,804 and \$3,417,040, respectively, and were equal to the required contributions for each year. Other contributions made from federal and private grants and from the District for salaries above the statutory minimum for the years ending June 30, 2009, 2008 and 2007 were \$587,770, \$494,612 and \$475,806, respectively, and were equal to the required contributions for each year. The amount contributed by the State on behalf of the District was \$3,083,559 for the year ended June 30, 2009.

I. Health Care Coverage

During the year ended June 30, 2009, employees of the District were covered by a health insurance plan (the Plan). The District paid premiums of \$300 per month per employee to the Plan. All premiums were paid to a licensed insurer. The Plan was authorized by Article 3.51-2, Texas Insurance Code and was documented by contractual agreement.

The contract between the District and the licensed insurer is renewable May 1, and terms of coverage and premium costs are included in the contractual provisions.

Latest financial statements for the plan for the year ended December 31, 2007, have been filed with the Texas State Board of Insurance, Austin, Texas, and are public records.

J. Retiree Health Plan

1. Plan Description

The District contributes to the Texas Public School Retired Employees Group Insurance Program (TRS-Care), a cost-sharing multiple-employer defined benefit postemployment health care plan administered by the Teacher Retirement System of Texas. TRS-Care Retired Plan provides health care coverage for certain persons (and their dependents) who retired under the Teacher Retirement System of Texas. The statutory authority for the

GEORGETOWN INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2009

program is Texas Insurance Code, Chapter 1575. Section 1575.052 grants the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants. The TRS issues a publicly available financial report that includes financial statements and required supplementary information for TRS-Care. That report may be obtained by visiting the TRS Web site at www.trs.state.tx.us, by writing to the Communications Department of the Teacher Retirement System of Texas at 1000 Red River Street, Austin, Texas 78701, or by calling 1-800-223-8778.

2. Funding Policy

Contribution requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. Texas Insurance Code, Sections 1575.202, 203, and 204 establish state, active employee, and public school contributions, respectively. The State of Texas and active public school employee contribution rates were 1.0% and 0.65% of public school payroll, respectively, with school districts contributing a percentage of payroll set at 0.55% for fiscal years 2009, 2008 and 2007. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than 0.25% or greater than 0.75% of the salary of each active employee of the public school. For the years ended August 31, 2009, 2008, and 2007, the State's contributions to TRS-Care were \$583,685, \$549,035, and \$502,048, respectively, the active member contributions were \$379,395, \$356,873, and \$326,331, respectively, and the school district's contributions were \$321,027, \$301,969, and \$276,126, respectively, which equaled the required contributions each year.

K. On-Behalf Payments

The District beneficiary of certain payments made other entities relating to fringe benefits. These payments are recorded in the government-wide and fund financial statements as state and/or federal revenues and payroll expenditures. These contributions are the responsibility of the state or federal government as detailed below.

Description	On-Behalf Amount
State contributions to the TRS retirement plan	\$ 3,083,559
Medicare Part D drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants	142,535
	<u>\$ 3,226,094</u>

L. Commitments and Contingencies

1. Contingencies

The District participates in grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectibility of any related receivable may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying basic financial statements for such contingencies.

2. Litigation

No reportable litigation was pending against the District at June 30, 2009.

GEORGETOWN INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2009

M. Shared Services Arrangements

Shared Services Arrangement - Fiscal Agent

The District is the fiscal agent for a Shared Services Arrangement ("SSA") which provides HELP: Type in the specific service provided by the SSA in place of the word "services on the line below. educational services to juveniles as defined by Title 3 of the Family Code to the member districts listed below. All services are provided by the fiscal agent. The member districts provide the funds to the fiscal agent. According to guidance provided in TEA's Resource Guide, the District has accounted for the fiscal agent's activities of the SSA in HELP: Type in the specific fund in place of "a special revenue fund" on the line below. a special revenue fund and will be accounted for using Model 3 in the SSA section of the Resource Guide. Expenditures of the SSA are summarized below:

<u>Member Districts</u>	<u>Expenditures</u>
Bartlett ISD	\$ 1,221
Florence ISd	5,552
Georgetown ISD	216,383
Hutto ISD	47,744
Jarrell ISd	19,986
Leander ISD	248,714
Liberty Hill ISD	19,986
Round Rock ISD	456,346
Taylor ISD	141,012
Total	<u>\$ 1,156,944</u>

N. Prior Period Adjustment

The District adjusted its beginning fund balance for its Special Revenue Fund to account for cash received for prior year reimbursements that were recorded as deferred revenues. The recognition of revenue resulted in an adjustment to beginning fund balance of \$15,949.

Required Supplementary Information

Required supplementary information includes financial information and disclosures required by the Governmental Accounting Standards Board but not considered a part of the basic financial statements.

Independent Auditors' Report

Report on Internal Control over Financial Reporting and on Compliance and
Other Matters Based on an Audit of Financial Statements Performed in
Accordance with Government Auditing Standards

Board of Trustees
Georgetown Independent School District
Georgetown, Texas

Members of the Board of Trustees:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Georgetown Independent School District as of and for the year ended June 30, 2009, which collectively comprise the Georgetown Independent School District's basic financial statements and have issued our report thereon dated November 5, 2009. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Georgetown Independent School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the Georgetown Independent School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Georgetown Independent School District's internal control over financial reporting. A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the Georgetown Independent School District's ability to initiate, authorize, record, process or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the Georgetown Independent School District's financial statements that is more than inconsequential will not be prevented by the Georgetown Independent School District's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the Georgetown Independent School District's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we considered to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Georgetown Independent School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion

on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, others within the entity, the Board of Trustees, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "West, Davis & Company". The signature is written in a cursive, flowing style.

Independent Auditors' Report

Report on Compliance with Requirements Applicable
To each Major Program and on Internal Control over Compliance
In Accordance With OMB Circular A-133

Board of Trustees
Georgetown Independent School District
Georgetown, Texas

Members of the Board of Trustees:

Compliance

We have audited the compliance of Georgetown Independent School District with the types of compliance requirements described in the *U. S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2009. Georgetown Independent School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Georgetown Independent School District's management. Our responsibility is to express an opinion on Georgetown Independent School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Georgetown Independent School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Georgetown Independent School District's compliance with those requirements.

In our opinion, Georgetown Independent School District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2009.

Internal Control Over Compliance

The management of Georgetown Independent School District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered Georgetown Independent School District's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Georgetown Independent School District's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we considered to be material weaknesses.

This report is intended solely for the information and use of management, others within the entity, the Board of Trustees, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "West, Davis & Company". The signature is fluid and cursive, written over the printed name of the firm.
